

IN A DISPLAY OF COLLABORATION,

CISPA joined forces with Cedar Crest High School's National Honors Society to pioneer a Mathematics Credit Recovery Program. Recognizing the need for targeted academic support, this partnership aimed to provide struggling students with an opportunity to bridge gaps in their mathematical understanding and regain academic momentum. These efforts yielded a tangible outcome – a 5.35% increase in the Average Percentage of Students scoring at the Proficient/Advanced level on their PSSAs.

In addition to the Math Credit Recovery Program, CISPA has implemented Empowerment Groups designed to build students' self-confidence and motivation. We've also worked to recruit more families to the Ebenezer Parent Teacher Organization, as well as helped with planning educational assemblies, mentoring students, and conducting home visits with families when needed. CISPA looks forward to building upon the success of this past year and will focus on Credit Recovery Programs, Tier 2 groups, creating a Resource Closet, and increasing the number of students receiving Tier 3 support.

We are proud to report a 1.9% reduction in school-wide chronic absenteeism at Union Canal Elementary School, reflecting our commitment to ensuring every student's consistent presence in the classroom.

Among quantifiable successes, a noteworthy accomplishment was establishing positive relationships with parents that transcended previous labels, leading to better understanding and communication amongst stakeholders. This was achieved through creating content for the school's social media pages, calling and facilitating in-person conversations with parents and caregivers to check in on families or address concerns, and being present at arrival and dismissal.

The success of this past year would not have been possible without the continued support of the Cornwall Lebanon School District, and our partners at United Way of Lebanon County.

Angelica DeSantiago
Director of Central PA Programs

OUR IMPACT

Our Reach

24,644

students served through Tier I or whole school supports (duplicated)

3,859

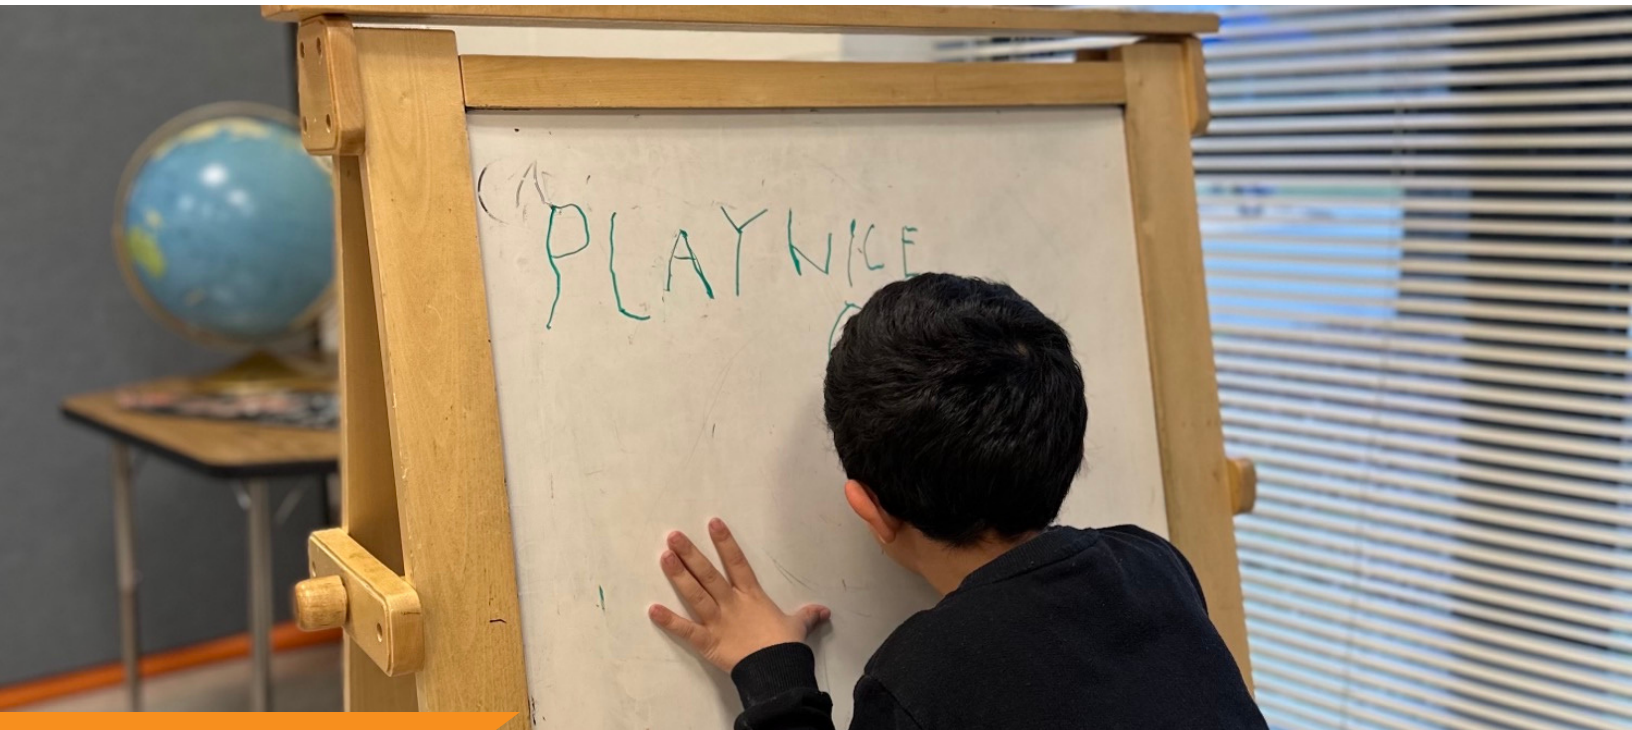

parents served through Tier I or whole school supports (duplicated)

624

basic needs items distributed

35

case-managed students

Our Results

84%

improved attendance

100%

improved behavior

70%

improved academics

89%

made positive progress toward their annual goals
